

BETTER WETTER

SUPER SOIL WETTER, REWETTER AND CHEMICAL SPREADER

BENEFITS

- Allows water to penetrate the ground - *Fast*
- Reduced water usage and evaporation
- Creates a better soil structure
- Reduces soil 'hard pan'
- Produces healthier plants, lawn and trees
- Improved chemical spreading

DESCRIPTION

Better Wetter is a 'Super Wetter' that helps to overcome the effects of water repelling soils allowing water to penetrate *fast* into the soil structure. By breaking down the natural surface tension between water and soil, Better Wetter promotes and regains the natural free flowing action of water required within the soil structure to promote healthy vegetation growth.

APPLICATION

Better Wetter is added to water that is being used to water and irrigate plants, turf, lawn and crops. Better Wetter can be applied in conjunction with other chemical to improve their effectiveness and application process.

Please refer to the Product Technical Sheet for dosage rates.

HEALTH, SAFETY, ENVIRONMENT AND THE COMMUNITY (HSEC)

RST strives, through a process of continuous improvement, to fully integrate health, safety, environmental and community (HSEC) consciousness into all aspects of its activities

Please refer to latest Product Technical Sheet or Material Safety Data Sheet for more information.
